Re: Site Name: **Triem Steel Landfill**

Dear Mr. Grossi:

This letter is in response to our phone conversation of March 21, 1985. The firm of Ecology and Environment, Inc. has been retained by the U.S. Environmental Protection Agency under contract 68-01-6692 for the purpose of evaluating candidate sites for the National Priorities List under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA), better known as Superfund.

Information supplied to the U.S. EPA through CERCLA notifications as required by Section 103(c) of CERCLA has identified the property in question as a possible candidate for the National Priority List. As part of our evaluation, the U.S. EPA has asked us to perform an on-site inspection of the property in question. This is the reason for my request to visit your facility during the week of April 1, 1985.

I have attached a copy of the Letter of Introduction provided by the U.S. EPA for Ecology and Environment employees engaged in field investigation work, which outlines the statutory basis for such inspections. So you have a better understanding of the information we need to obtain, I have also attached a copy of the site inspection form.

If you require additional information or if a change in plans is necessary, please do not hesitate to call me.

Sincerely,

*Sue Ryan*  
Sue Ryan
